HI LIFT REFRIGERATED CATERING VEHICLE

Southwell's unique design has produced the lightest most fuel efficient and environmentally friendly catering vehicle on the market.

The hydraulic system operates at an extremely low 1500psi and low rpm under full load for long life and lower running costs.

Weighing less than 12 tonne and offering 3-4.5 tonne lift capacity depending on the country of use, the unit is road registered and fully compliant with all relevant standards.

The refrigeration unit can go as low as 4°C and can be run from both the truck engine or independent power supply.

Robust and dependable design and quality manufacture ensures many years of trouble free service.

Can be fitted to major brand cab chassis: Mitsubishi, Isuzu, Hino, Iveco, Mercedes Benz, Volvo.
